

APPROVED - USAWE 2023 Annual Budget

Revised Approved Budget per BOD Meeting on 8.9.23. Additional revisions as noted below.

Actual Income and Expenses are based on Treasurer Reports (posted to G-Drive) and QuickBooks Reconciled thru September 2023

Operating Reserves

An operating reserve is an unrestricted fund balance set aside to stabilize a nonprofit's finances by providing a "rainy day savings account" for unexpected cash flow shortages, expense or losses caused by delayed payments, unexpected expenses or economic conditions. Reserves should not be used to make up for income shortfalls unless the organization has a plan to replace the income or reduce expenses in the near-term future. In short, reserves should be used to solve problems, not deficit problems. A commonly used reserve goal is 12 months' expenses. At the high end, reserves should not exceed the amount of two years' budget. Each nonprofit should set its own reserve goal based on its cash flow and expenses. To be a viable operating reserve, there should be a board agreement and policy about how reserve funds can be used: When they can be used, who is authorized to use them, and how this is reported to the board.
